

OUR BEST SERVICE

Giga-Brite is proud to say that we provide all industries with our green product as the world has no taken a stand on being eco-friendly and going green to protect our planet. Its revolutionary how most companies and individuals have become aware of how essential it is to be environmentally influential and lower the impact on our earth.

Giga-Brite passionately services the following industries and these are just to mention a few:

- Hotel, restaurant and leisure industry
- Retail industry
- Banking industry
- Farming industry
- Education industry
- Construction and engineering industry
- Household industry
- Multiline retail industry
- Health care equipment industry
- Agricultural industry

Our service and quality of our products are of the highest standard. We are in huge demand, and we are making sure every industry goes green!

OUR COMPANY

Gigabrite was established approximately 25 years ago. The founder of the company has over 35 years experience in the environmental friendly industry, having worked with most of the major players in the eco-friendly field.

Gigabrite has its head office in Northcliff, Randburg, Johannesburg. In the last year Gigabrite's clients have been so delighted with our service that the demand for our products and services, despite the recent recession, required us to open branches in Cape Town and Durban and is now expanding higher up into Africa. Our vision is to become the leading eco-friendly products supplier in Africa.

ECO-FRIENDLY
